

CISD TECHDAY

**Focus on Virtualization
Capital Park Welcome Center
702 River Rd N
Baton Rouge, LA 70802-5216
Baton Rouge, LA
May 14, 2009**

Dell invites you to come see the latest advances in server virtualization at a half-day seminar. Lead your agency to disaster recovery and business continuity success with VMware and Double Take solutions. Also, Apani software will attend and explain virtual compliance solutions. We'll end the day with a crawfish boil and Jambalaya. Space is limited so register to secure your spot today!

9am – 11am VMware®

Vsphere and whats new.

VMware vSphere is the industry's first [cloud operating system](#), transforming IT infrastructures into a [private cloud](#)—a collection of internal clouds federated on-demand to external clouds—delivering IT infrastructure as an easily accessible service. Enable the next generation of flexible, reliable IT services with the efficiency and low cost of cloud computing—featuring uncompromising control over service levels.

VMware View Products

Deliver rich, personalized virtual desktops to any device with all the benefits of centralized enterprise desktop management. The VMware View portfolio of products lets IT run virtual desktops in the datacenter while giving end users a single view of all their applications and data in a familiar, personalized environment on any device at any location. Get greater flexibility, reliability, efficiency and security managing desktops and applications from the datacenter.

Site Recovery Manager

Accelerate recovery and ensure successful recovery by automating the recovery process and eliminating the complexity of managing and testing recovery plans. VMware vCenter Site Recovery Manager eliminates complex manual recovery steps and removes the risk and worry from disaster recovery.

11am – 11:30am Double-Take® for VMware Infrastructure

Double-Take® for VMware Infrastructure is an affordable and easy-to-use software product that protects VMware ESX virtual machines and provides administrators centralized management capabilities for ease of use and lower total cost of

ownership. Double-Take for VMware Infrastructure replicates the entire virtual machine: the OS, applications and data, allowing you to replicate everything to any location and resume operations with minimal downtime.

11:30am – 12:00 pm Apani - VMFW™

VMFW™ is a security software solution designed to protect businesses from vulnerabilities associated with deploying virtualization. To deliver “defense-in-depth”, it combines a virtual network firewall, an IDS/IPS and VM enforcement solution, all centrally managed from anywhere on the network.

12pm – 1pm Boiled Crawfish lunch!!!!
