

**CISD TECH DAY**  
**June 9. 2009**  
**Capitol Park Welcome Center**

**Registration: 8:30 a.m.**

**Presentation: 9:00 a.m. - Noon**

**Fujitsu Primergy (X86) Rack, Tower and Blade Offerings:**

This technical deep dive will focus on how Fujitsu stands apart (and above) the competition as it relates to the following:

- Innovation - Utilizing Fujitsu virtualization products to enhance basic hypervisors from major 3<sup>rd</sup> party vendors
- Reliability - Leveraging Cool Safe Technology, realizing an increased MTBF and server life span
- Performance - Winning the Major Benchmarks
- Green - Achieving dramatic reductions in power usage and increased savings

**Fujitsu ETERNUS (enterprise) Storage Technology:**

This session will review Fujitsu's best of breed ETERNUS storage systems with an emphasis on the following:

- Architecture
- Disk Encryption Capability
- ECO-mode functionality
- Virtualized data mobility features
- Replication services

*Refreshments provided by Advanced Office Systems*
